—, Ligation of the femoral artery for large aneurism of the popliteal artery; recovery. 1 p. 8°. *Philadelphia*, 1873. [P., v. 2220.]

Repr. from: *Phila. M. Times*, 1873, iii.

—, Report of two cases of amputation in which a modification of the Esmarch apparatus was employed. 2 pp. 8°. *Philadelphia*, 1874. [P., v. 2220.]

Repr. from: *Phila. M. Times*, 1873-4, iv.

Mears (J. Ewing)—continued.

Case of encysted dropsy of the peritoneum, in which suppuration had occurred and abdominal section was performed, with recovery. pp. 171-180. 8°. [*Philadelphia*, 1875.]

Cutting [cover with printed title] *from*: Tr. Coll. Phys. Phila., 1875, 3. s., i.

Case of lacerated wound of the elbow-joint treated successfully by the antiseptic method of Prof. Lister. pp. 12-15. 8°. [*Philadelphia*, 1876. [P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1876, 3. s., iii.

Case of peripheral necrosis of the humerus, involving the head and entire shaft; pre-existing osseous ankylosis of the shoulder and fibrous ankylosis of the elbow; amputation at the shoulder joint. pp. 18-21. 8°. [*Philadelphia*, 1876. [P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1876, 3. s., iii.

Cases of sarcomatous tumor. I. Of the lower jaw, involving the masseter muscle. II. Of the parotid gland, involving the masseter muscle; removed by operation. pp. 166-177. 8°. [*Philadelphia*, 1876. [P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1876, 3. s., iii.

Case of gunshot wound of the abdomen, perforating the ascending colon. pp. 10-11. 8°. [*Philadelphia*, 1877. [*Also, in*: P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1877, 3. s., iv.

On the treatment of old dislocations of shoulder by subcutaneous section of the humerus and the formation of a false joint; with the report of a case in which this operation was performed. pp. 199-212. 8°. [*Philadelphia*, 1877.] [*Also, in*: P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1877, 3. s., iv.

Report of a case of diabetes mellitus in which double cataract existed, death occurring three days subsequent to an operation of extraction. pp. 68-78. 8°. [*Philadelphia*, 1880. [P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1880, 3. s., v.

A résumé of twenty-five cases of abdominal section. pp. 204-213. 8°. [*Philadelphia*, 1882. [P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1882, 3. s., vi.

Clinical lectures. Case I. Vesico-vaginal fistula. Case II. Epithelioma of vulva; operation. pp. 49-51. 8°. [*Philadelphia*, 1883. [P., v. 2220.]

Repr. from: Coll. & Clin. Rec., Phila., 1883, iv.

Clinical lecture. Case I. Vesico-vaginal fistula of unusual origin. II. Hair-pin incarcerated in the canal of the uterus; removal. pp. 89-90. 8°. [*Philadelphia*, 1883. [P., v. 2220.]

Repr. from: Coll. & Clin. Rec., Phila., 1883, iv.

Closure of the jaws, and its treatment; with the report of a case in which complete occlusion followed a gunshot wound of the left superior maxilla received at two-and-a-half years of age and which was relieved eighteen years subsequently by operation according to a new method. 16 pp. 8°. [*Philadelphia*, 1883. [P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1883, i.

Vesico-vaginal and recto-vaginal fistula. A clinical lecture. pp. 169-170. 8°. [*Philadelphia*, 1883. [P., v. 2220.]

Repr. from: Med. News, Phila., 1883, xliii.

Clinical lecture. Lecture I. Abdominal surgery. pp. 210-212. 8°. [*Philadelphia*, 1885. [P., v. 2220.]

Repr. from: Coll. & Clin. Rec., Phila., 1885, vi.

The same. Lecture II. Operations on the kidney. pp. 223-225. 8°. [*Philadelphia*, 1885. [P., v. 2220.]

Repr. from: Coll. & Clin. Rec., Phila., 1885, vi.

Mears (J. Ewing)—continued.

Phosphorus-necrosis of the jaws. 31 pp. 8°. [*Philadelphia*, 1885. [P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1885, iii.

A sketch of the life of Samuel D. Gross. 18 pp. 8°. [*Philadelphia*, 1885. [P., v. 2220.]

Study of the pathological changes occurring in trifacial neuralgia. With the report of a case in which three inches of the inferior dental nerve were excised. 17 pp. 8°. [*Philadelphia*, 1885. [P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1884, ii.

Closure of the jaws, and its treatment. 15 pp. 8°. [*Philadelphia*, W. J. Dornan, 1887. [*Also, in*: P., v. 2220.]

Repr. from: Tr. Coll. Phys. Phila., 1887, 3. s., ix.

The progress and limitations of operations upon the abdominal cavity. 20 pp. 12°. [*Philadelphia*, 1887. [P., v. 2220.]

Repr. from: Phila. M. Times, 1886-7, xvii.

The propriety of surgical interference in perforating typhoid ulcer. 14 pp. 8°. [*Philadelphia*, W. J. Dornan, 1888. [*Also, in*: P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1888, vi.

Surgery of the abdomen. pp. 68-144. 8°. [*Philadelphia*, Med. Bull. Print. House, 1888. [*Also, in*: P., v. 2220.]

Cutting [cover with printed title] *from*: Ann. Univ. M. Sc., Phila., 1888.

Distended gall-bladder simulating floating kidney; cholecystotomy by the lumbar incision. 7 pp. 8°. [*Philadelphia*, W. J. Dornan, 1889. [*Also, in*: P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1889, vii.

Cleft of the hard and soft palates. 8 pp. 8°. [*Philadelphia*, 1893.] [*Also, in*: P., v. 2220.]

Naso- or retro-pharyngeal growths. 6 pp., 1 pl. 8°. [*Philadelphia*, 1893.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1893, xi.

Address of the president, American Surgical Association, 1894. 9 pp. 8°. [*Philadelphia*, 1894.] [P., v. 2220.]

Repr. from: Tr. Am. Surg. Ass., Phila., 1894, xii.

Ligature of the spermatic cord in the treatment of hypertrophy of the prostate gland. 5 pp. 8°. [*Philadelphia*, 1894.] [*Also, in*: P., v. 2220.]

Ligature of the spermatic cord for conditions other than hypertrophy of the prostate gland. 4 pp. 8°. [*Philadelphia*, 1895. [P., v. 2220.]

[Collection of pamphlets, 1871-97.] 8°. [*Philadelphia*, 1897.] [P., v. 2220.]

The operative treatment in occlusion of the jaws. 15 pp. 12°. [*Chicago*, 1897. [*Also, in*: P., v. 2220.]

Repr. from: J. Am. M. Ass., Chicago, 1897, xxix.

The evolution of surgery. 16 pp. 8°. [*Philadelphia*, W. J. Dornan, 1904.

Medicine (Collected works of single authors on)—Opera omnia.

See, *also*, **Medicine** (Essays, etc., on) [prior to A. D. 1800]; **Medicine** (Practice of, Systematic treatises on).

AB ALTOMARI (D. A.) Omnia, quae lucusque in lucem prodierunt, opera, nunc primum in unum collecta, et ab eodem auctore diligentissime recognita et aucta; cum locis omnibus in margine additis. fol. *Lugduni*, 1565.

ARCLANUS (J.) Practica Joannis Arculani. [F. 2 incip.] Expositio noni libri Almansoris edita a clarissimo viro Joanne Arculano cive Veronensi, etc. fol. [*Venetis*, 1497.]

— The same. Practica Joan. Arculani. Clarissimi prothomedici Joan. Arculani divinum opus in nonum Rasis ad regem Almansorem librum, practicus perque necessarium, melius quam antea emendatum, et floribus marginalibus illustratum, novissimeque summa cum diligentia impressum, etc. fol. [*Venetis*? 1517.]

ARETÆUS (C.) Ἀρεταίων Καππαδόκων τὰ σώζονενα. Aretæi Cappadocis quæ supersunt. Recensuit et illustravit F. Z. Ernerius. 4^o. *Traj. ad Rhenum*, 1847.

ARIZA Y ESPEJO (R.) Escritos médicos. [With biography by A. M. Fabié.] 3 v. 8^o. *Madrid*, 1888.

ARNOLDUS DE VILLA NOVA. Hæc sunt opera Arnaldi de Villa Nova, quæ in hoc volumine continentur. Speculum medicinae, de humido radicali, de intentionibus medicorum [etc.]. fol. *Lugduni*, 1504.

— The same. Nuperrime recognita ac emendata diligentique opera impressa. fol. *Venetis*, 1505.

— The same. fol. [*Lugduni*, 1509.]

— Compendium medicinae practice, cui accesserunt tractatus generalis de urinis, de peste, de omnibus febribus, et alii complures. fol. *Lugduni*, 1506.

Medicine (*Collected works of single authors on*)—*Opera omnia*.

— Praxis medicinalis, universorum morborum humani corporis, tam interiorum quam exteriorum, curandi viam ac methodum, summa cum doctrina et certa experientia prescribens. fol. *Lugduni*, 1586.

— Tractatus varii exoterici ac chymici, versa pagina enumerati. Quibus ultra editiones præcedentes hactenus editas, accesserunt cathena aurea, et testamentum ejusdem philosophi. fol. *Lugduni*, 1586.

AVICENNA. [Libri quinque canonis de medicina et antidotarium.] [*F. 1 a (cum sign. aij) rubro*.:] Liber canonis primus quem princeps Aboli Abinsecni de medicina edidit. Translatus a magistro Gerardo Cremonensi in Toletum ab Arabico in Latinum. Verba Aboli Abinsecni. [*In fine lib. v.*] Adest complementum libri quinti qui dicitur antidotarium libri totius canonis regis Aboli Hasseni filii Hali Abinsecni ejus complementum totus iste liber finitur est, summa ac diligentia emendatus. Impressus Venetiis impensis ac ingenio magistri Petri Manser Gallici et sociorum. Anno incarnationis Domini, mccccxxxvi, die. x, mensis Junii. [*F. 1 cum sig. ec.*] Libellus Avicennæ de viribus cordis translatus ab Arnaldo de Villa Nova Barchinæ feliciter incipit. Tractatus primus de origine spiritus et generibus ejus et principiis suæ generationis et informationis. Capitulum primum de origine spiritus. [*In fine*.:] Expletus est libellus de viribus cordis quem princeps Avicenna edidit. Impressus Venetiis. Anno incarnationis Dominicæ, mccccxxxvi. 4°. *Venetis*, 1486.

BAGLIVI (G.). Opera omnia medico-practica, et anatomica. Hac sexta editione, post ultimam Ultrajectinam aucta, novisque locupletata dissertationibus, epistolis et præfatione quæ systematicis Bagliviani usum aperit, adversariorumque diluit objectiones. Accedit tractatus de vegetatione lapidum opus desideratum, necnon de terremoto Romano, et urbium adjacentium anno 1703. 4°. *Lugduni*, 1704.

— The same. 4°. *Venetis*, 1727.

— The same. Editio inter quamplurimas emendatissima. In qua præter dissertationes, et alios tractatus præcedentibus editionibus adjunctos, quæ sunt ejusdem Baglivi canones de medicina solidorum, [etc.]. Accedunt index rerum, verborumque a viro in theoria practicaque medicina peritissimo multo labore confectus; in quo aurei vere operis velut quoddam enchiridion, et compendiolum in communem agrotantium utilitatem medici habere possunt; præterea ipsiusmet Baglivi vita ex ejusdem operibus excerpta, et aliqua doctissimi auctoris additamenta. 4°. *Venetis*, 1761.

— The same. Opere complete medicopractiche ed anatomiche coll'aggiunta di quattro opuscoli del Santorino tradotte per la prima volta in italiano e commentate da Raimondo Pellegrini. 8°. *Firenze*, 1841.

Date on cover: 1843.

BARBETTE (P.). Opera omnia medica chirurgica et anatomica, notis et observationibus nec non pluribus morborum historiis et curationibus illustrata. Editio novissima [etc.]. 4°. *Geneve*, 1704.

— The same. Alle de mediceynale werken na de hedendaagsche practyk beschreven bestaande in de chirurgie en practyk der mediceynen verciert met nooten door F. Dekkers. 16°. *t Amsterdam*, 1709.

— The same. 9. druk. 12°. *Amsterdam*, 1723.

Medicine (*Collected works of single authors on*)—*Opera omnia*.

BIFFI (S.). Opere complete. 5 v. 8°. *Milano*, 1902.

BOERHAAVE (H.). Opera omnia medica complectentia: I. Institutiones medicæ. II. Aphorismos de cognoscendis et curandis morbis. III. Libellum de materia medica. IV. Tractatum de hæc aphrodisiaca sive venerea. V. Atrocis, nec descripti prius morbi historiam. VI. Atrocis, rarissimique morbi historiam alteram. VII. De fabrica glandularum in corpore humano epistolam. VIII. De mercurio experimenta ex Act. Reg. Lond. Soc. cruta. IX. Orationes inangrualacademias. Accedit in nova hæc editione, auctoris vita et effigies. roy. 8°. *Napoli*, [1750].

— The same. 4°. *Venetis*, 1790.

BONTEKOE (C.). Alle de philosophische, medicinale en chymische werken, behelsende een afwerp der ongefondeerde mediceyne, chirurgie en pharmacie der oude genees-heeren. Neffens den opbouw van een ware philosophie mediceyne en chymie dienende om de gezondheid lang te bewaren, en de siektens kort en veilig te genezen. 2 v. in 1. 4°. *Amsterdam*, 1689.

BUFALINI (M.). Opere. 6 v. in 9. 8°. *Firenze*, 1844-72.

CAIUS (J.). [Opera aliquot et versiones. Videlicet de medicandi methodo lib. ii. De ephemeris Britannica, liber unus. Versio librorum Galeni, nempe de libris suis. De ordine sanorum librorum. De ratione victus secundum Hippocratem, in morbis acutis. De placitis Hippocratis et Platonis.] 16°. [*Lorantii*, 1556.]

CAPIVACCEUS (H.). Opera omnia, quinque sectionibus comprehensa: Quarum prima, physiologica; secunda, pathologica; tertia, therapeutica; quarta, mista; quinta, extranea. Hac sexta, et novissima editione ejusdem auctoris consilia jam diu desiderata, ac alia plurima, typis hactenus nondum in lucem edita, nunc autem castigatissima in publicum, ad omnium studiosorum utilitatem, prolata. fol. *Venetis*, 1617.

CHARAKA-SAMHITĀ. The collected works of Charaka, consisting of the treatises on sūtra (general principles), nidāna (pathology), [etc.]. 8°. *Calcutta*, 1-77.

— The same. Transl. into English. Pts. 1-16. 8°. *Calcutta*, [1888-97].

CHARCOT (J.-M.). Œuvres complètes. v. 4-9. 8°. *Paris*, 1887-90.

DAVAINE (C.-J.). L'œuvre de . . . Charbon, septicémie, parasitisme, microbisme, anatomie, physiologie, anomalies, tératologie. 8°. *Paris*, 1889.

DE DIEMERBROECK (I.). Opera omnia anatomica et medica, partim jam antea excusa, sed plurimis locis ab ipso auctore emendata, et aucta, partim nondum edita. Nunc simul collecta, et diligenter recognita, per Timannum de Diemberbroeck, Isb. fil. fol. *Ultrajecti*, 1685.

DOLEUS (J.). Opera omnia: exhibentia non modo encyclopediam medicam dogmaticam in qua affectus humani corporis interni, et encyclopediam chirurgicam rationalem. . . , in ultima hæc editione longe auctiora et correctiora reddita, de novo offertia. I. Tractatum de theriaca cœlesti, ejus usum viresque exhibentem. II. Observationes auctoris rariores, et curiosas hactenus tum eruditissimè communicatas, tum privatis in scriniis hæc usque asservatas. III. Commercium ejus epistolare cum celeberrimo quondam archiatro Hassiaco et professore Marburgensi D. D. Johanne Jacobo Waldschmidtio

Medicine (*Collected works of single authors on*)—*Opera omnia*.

philosophico-medicum et varii argumenti, etc. fol. *Venetii*, 1695.

ETTMÜLLER (M.) *Opera omnia* theoretica et practica, in quibus universa praxis medica sive omnium totius humani corporis morborum dilucida descriptio, eorumque causarum accurata explicatio et curatio per selectissima et optima medicamenta, secundum principia et experimenta chymica ac anatomica. . . ., Helmontii, Willisii, Sylvii Taackenii, aliorumque neotericorum exhibetur. Accedit chirurgia medica pulcherrima methodo omnes affectus externos explicans, eorumque causas, restitutionem et curam describens, ut et methodus consultatoria, per variorum casuum exempla docens morborum resolutionem et curationem. Annexi sunt in fine de particularibus quibusdam materiis tractatus ejus singulares. 4°. *Lugduni*, 1655.

— The same. Nempie institutiones medicinæ cum notis [etc.]. fol. *Francof. ad Manum*, 1688.

— The same. Editio postrema, accuratissime ad mentem auctoris recognita [etc.]. 3 v. fol. *Venetii*, 1700.

— The same. Editio novissima, diligenter recognita, a mendis quibus priores editiones scatebant expurgata, et denum, tractatu de virtute opii locupletata. 4°. *Venetii*, 1727.

FABER (P. J.) *Opera*. 2 v. sm. 4°. *Francofurti*, 1656.

FABRICIUS ab *Aquapendente* (H.) *Opera omnia* anatomica et physiologica, hactenus variis locis ac foris edita; nunc vero certo ordine digesta, et in unum volumen redacta. Accessit index rerum ac verborum locupletissimus una cum præfatione Bernardi Siegfried Allini. Ed. novissima. fol. *Lugd. Bat.*, 1738.

FABRICIUS *Hildanus* (G.) *Opera* quæ extant omnia, partim antehac excusa, partim nunc recens in lucem edita. Omnia ab autore recognita, multisque in locis, tum epistolis clarissimorum virorum, tum observationibus et exemplis novis aucta. In ultima hæc editione instrumenta quam plurima, in præcedentibus editionibus inepte depicta et sculpta, nunc singulari artificio ad vivum adumbrantur multaque alia ab autore inventa adjiciuntur. Cum duplici indice, uno morborum secundum partis corporis, altero rerum et verborum locupletissimo. Additus quoque ob materiam similitudinem Marci Aurelii Severini liber de efficaci medicina, chirurgiæ et medicinæ cultoribus maxime utilis. fol. *Francof. ad Manum*, 1682.

FERNELIUS *Ambianus* (J.) *Opera* medicinalia; nempe physiologia, pathologia, et therapeutica, seu medendi ratio: quibus adjecimus de abditis rerum causis: nunc denno recognita et impressa; Io. Fernelii leguntur. sm. 4°. *Venetii*, 1565.

— The same. 4°. *Venetii*, 1566.

FICK (A.) *Gesammelte Schriften*. 8°. *Wärzburg*, 1904.

FLEISCHL VON MARXOW (E.) *Gesammelte Abhandlungen*. Hrsg. von O. Fleischl von Marxow. Mit einem Portrait des Verfassers und einer biographischen Skizze von S. Exner. 8°. *Leipzig*, 1893.

— The same. 2 v. in 1. 8°. *New York*, [1891].

— Sämmtliche Werke. Ins Deutsche übersetzt und ausführlich commentiert von Robert Fuchs. 2 v. 8°. *München*, 1897.

Medicine (*Collected works of single authors on*)—*Opera omnia*.

HORST (G.) sen. Operum medicorum, [etc.]. 2 v. 4°. *Gouda*, 1661.

ISAAC *Indanus*. Omnia opera Ysaac in hoc volumine contenta: cum quibusdam aliis opusculis. fol. *Lugduni*, 1515.

JEBB (J.) The works, theological, medical, political, and miscellaneous, of . . . With memoirs of the life of the author, by J. Disney. 3 v. 8°. *London*, 1787.

LANCISI (J. M.) Opera quae haecenus prodierunt omnia, dissertationibus nonnullis adhuc dum ineditis locupletata, et ab ipso auctore, recognita atque emendata. Collegit ac in ordinem digessit Petrus Assaltus. 2 v. 4°. *Genova*, 1718.

DE LETAMENDI (J.) Obras completas. Publicadas por su discípulo, Rafael Forn. 2 v. 8°. *Madrid*, 1899-1901.

LIDDEL (D.) Operum omnium iatro-Galenicorum, ex intimis artis medicae adytis, et penetrabilibus entorium tomis unicis. Num recens ab infinitis, quibus ex typographi in curia, scatebat erroribus, ac mendis repurgatus, defecatusque; a tractatum et capitum *ατάξα* probe reudicatus; notatiunculis aliquot in margine auctis et illustratis, atque adeo juxta mentem auctoris splendori suo restitutus. Opera et studio Ludovici Serrani. 4°. *Lugduni*, 1624.

DE MAYERNE (P. T.) Opera medica, complectentia consilia, epistolae et observationes, pharmacopaeam, variasque medicamentorum formulas. Duobus libris comprehensa, et jam in lucem edita, opera et cura Josephi Browne. fol. *Londini*, 1700.

MEAD (R.) The works of the late learned . . . 7 v. 8°. *London*, 1756.

— The same. Opera omnia. Tomus primus, continens, de venenis; de peste; de variolis et morbillis. Accessit Rhazis inter Arabes celeberrimi, de iisdem morbis commentarius. 8°. *Parisiis*, 1757.

MERCADO (L.) Tomus secundus operum, quae nunc primum hic in lucem edita: in quatuor partes divisa. fol. *Venetis*, 1611.

MÉRY (J.) Œuvres complètes (anatomie, physiologie, chirurgie). Réunies et publiées par . . . L. H. Petit, avec une introduction par . . . Vernueil. 8°. *Paris*, 1888.

MESUE (J.) [*In fine*:] Opera cum expositione Mondini super canones universales: ac etiam cum expositione Christophori de Hohenstis in antidotarium ejusdem. Necnon additiones Petri Apponi. Et antidotarium Nicolai cum expositione Platearii. Joannes de Sancto Amando super antidotarium Nicolai. Additiones novae super Mesuae et Nicolai antidotariis cum marginaliis annotationibus. Tractatus quid pro quo. Tractatus de synonymis. Libellus servitoris. Compendium aromatariorum Saladini: cum duabus tabulis nuper additis ad facilius et brevius antidota ac eorundem utilitates inveniendi. Omnia hic ad omnipotentis Dei, interemerat virginis Mariae, ac reliquorum celitum laudem et honorem: necnon ad Apollineae arti incumbentium fructum et utilitatem: tandem optatam sortiuntur finem. fol. *Lugduni*, 1525.

— The same. Opera. Divi Joannis Mesue medicorum evangelistae celeberrimi praecleara opera non pauca artis medicae studiosis utilissima, scituque necessaria complectentia: quae non solum quam haecenus fuerint supererime castigatiora, verum etiam multo locupletiora (adjectis perque doctorum virorum commentariis et additionibus) reddita sunt; ut candidissimo enique lectori constabit, singulas tractatum inscriptiones, quas congrua serie digestas pro-

Medicine (*Collected works of single authors on*)—*Opera omnia*.

xime sequens pagina continet, despicienti. Accessit his quæ præscripta sunt diligenter contextus index, quo citra longe inquisitionis laborem dirigetur candidus lector, ad ea quæ scire voluerit in promptu comperienda. fol. [n. p.], 1541.

— The same. Opera quæ extant omnia. Ex duplici translatione: altera quidem antiqua, altera vero nova Jacobi Sylvii. Item authores omnes, qui cum Mesue imprimi consueverunt; quorum nomina, ac librorum titulos sequens pagina indicat. Accesserunt his annotationes in eundem Mesuen Joannis Manardi, et Jacobi Sylvii. Adjectæ sunt etiam nunc recens Andreae Marini annotationes in simplicia cum imaginibus desideratis. Scholion item ejusdem in olea quedam. Quæ omnia maxima diligentia ab eodem Marino et vetustissimis exemplaribus sunt castigata. fol. *Venetis*, 1561.

— The same. Opera a Joanne Costa nunc recognita, et aucta adnotationibus, quibus a recentiorum calumniis divinis hic scriptor vindicatur. Accessere his varia diversorum medicorum opuscula, quæ una cum Mesue imprimi consuevere, ac præterea plantarum de quibus in libro simplicium agitur, legitime imagines ad vivum expressæ, in superioribus editionibus desideratæ. Quibus additis etiam nunc est Cephoni libellus de arte medendi inscriptus, Mesue operum veluti correlarium: in quo tractandæ medicæ materiæ ratio atque usus brevissime explicatur. fol. *Venetis*, 1568.

MORICEAU (F.) Opere medico-chirurgiche, divise in due tomi. Traduzione dal francese giusta l'ultima edizione riveduta, corretta ed accresciuta dall'autore. 2 v. 4°. *Venezia*, 1760.

MORTON (R.) Opera medica. 3 v. in 1. sm. 4°. [n. p., 1696.]

— The same. 4°. *Lugduni*, 1718.

NIEREMBERGIUS (J. E.) Historia naturæ, maxime perigrinæ, libris xvi distincta. In quibus rarissima naturæ arcana, etiam astronomica, et ignota Indiarum animalia, quadrupedes, aves, pisces, reptilia, insecta, zoophyta, plantæ, metalla, lapides, et alia mineralia, fluidorumque et elementorum conditiones, etiam cum proprietatibus medicinalibus describuntur; novæ et curiosissimæ quæstiones disputantur, ac plura sacre Scripturæ loca erudite enodantur. Accedunt de micis et miraculosis naturis in Europa libri duo; item de iisdem inter Hebræos promissa liber unus. fol. *Antverpiæ*, 1635.

NIKANDER. Νικάνδρου θηριακά ἀλεξιφάρμακα. fol. [*Venetis*, 1499.]

ORIBASIIUS *Sardianus* (D.) Opera, quæ extant omnia, tribus tomis digesta, Joanne Baptista Rosario interprete. Primus habet synopses ad Eustathium filium libros novem, quibus tota medicina, in compendium redacta, continetur; item duos libellos de machinamentis et laqueis, suis figuris exquisiti illustratos. 16°. *Basileæ*, 1557.

PAPARELLA (S.) Opera omnia quinque distincta voluminibus, nunc primum in unum collecta, et ab eodem auctore, diligentissime recognita, et aucta. Videlicet: In Hippocratis librum de natura humana commentarii duo. De efficientia primi motoris liber i. De calido libri iii. De indicationibus curativis liber tractatus viii continens. De catarrho libri ii. Quibus pro majore facilitate lectorum adjecti fuere indices, tum rerum notabilium, tum capitum. fol. *Macerata*, 1582.

Medicine (*Collected works of single authors on*)—*Opera omnia*.

PARACELSUS (A. P. T.) Operum medicochimicorum sive paradoxorum tomus geminus. 11 v. in 4. 4°. *Frankfurti*, 1603-5.

— The same. Opera, Bücher und Schrifften, so viel deren zur Handt gebracht, und vor wenig Jahren, mit und auss ihren glanbwürdigen eigener Hangeschriebenen Originalien collacioniert, verglichen, verbessert; und durch Joannem Huserum Brisgoium in zehen unterschiedliche Theil, in Truck gegeben. Jetzt von Newem mit Vleiss überschen, auch mittelichen bisshero unbekandten Tractaten gemehrt, und umb mehrer Bequemlichkeit willen, in zwen unterschiedliche Tomos und Theil gebracht, deren Begriff und Ordnung, nach der Vorrede zu finden, sampt beyder Theilen vleisigen und vollkommenen Registern. [v. 1.] fol. *Strassburg*, 1603.

— The same. fol. *Strassburg*, 1616.

PAULUS *Egineta*. Opera Joanne Guinterio Andernaco ejusdem Guinterii et Jani Cornarii annotationes: item, Jacobi Gonpyli et Jacobi Dalechampii scholia in eadem opera. 16°. *Lugduni*, 1567.

— The same. Opera a Joanne Guinterio Andernaco . . . conversa, et illustrata commentariis. Adjectæ sunt annotationes Jacobi Gonponli in aliquot singulorum librorum capita. 24°. *Venetis*, 1567.

DE PERAMATO (P.) Opera medicinalia. De clementis. De humoribus. De temperamentis. Alia insuper utilissima traduntur opera, quæ novo titulo et libri principio comprehenduntur. fol. *San Lucas a Barrameda*, 1576.

PITCAIRN (A.) The whole works of . . . published by himself; wherein are discovered the true foundation and principles of the art of physic, with cases and observations upon most distempers and medicines. Done from the Latin original by George Sewell and J. T. Desaguliers, with some account of the author. 2. ed. 8°. *London*, 1727.

POLYBI illustris medici, Hippocratis quondam et discipuli et successoris, opuscula aliquot nunc primum e Græco in Latinum conversa, nempe de tuenda valetudine, sive de ratione victus sanorum, liber i: de seminis humani natura, liber ii: de morbis, sive affectibus corporis, libri ii. Albano Torino, Vito durano, interprete cum gratia et privilegio ad quinquennium. sm. 4°. *Basileæ*, 1544.

POTERIUS (P.) Opera omnia medica et chymica. 16°. *Lugduni*, 1645.

— Opera omnia practica et chymica, cum annotationibus et additamentis utilissimis pariter ac curiosis Friderici Hoffmanni. Accessit nova doctrina de febribus, ex principiis mechanicis solide deducta. sm. 4°. *Venetis*, 1741.

PUCCINOTTI (F.) Opere. Volume unico. roy. 8°. *Pisa*, 1839.

RAMAZZINI (B.) Opera omnia medica et physiologica. Accessit vita auctoris a Bartholomæo Ramazzino. 4. ed. 2 v. 4°. *Londini*, 1739.

— Opera medica. Editionem reliquis emendatorem et vita auctoris antea curavit Justus Radius. 2 v. 12°. *Lipsiæ*, 1828.

REDI (F.) Opere con somma diligenza insieme raccolte, accrescite e migliorate. Edizione novissima arricchita della vita dell'autore scritta dal signor abate Salvino Salvini, ed in più luoghi corretta ed emendata. 7 v. 8°. *Venezia*, 1762.

AMERICAN (The) medical lexicon, on the plan of Quincy's lexicon physico-mediciu, with many retrenchments, additions, and improvements, comprising an explanation of the etymology and signification of the terms used in anatomy, physiology, surgery, materia medica, chemistry, and the practice of physic. Compiled from the most approved authorities. 8°. *New York*, 1-11.

APPLETON'S medical dictionary. An illustrated dictionary of medicine and allied subjects... Ed. by F. P. Foster. 8°. *New York*, 1904.

BARTON (W. M.) & WELLS (W. A.) A thesaurus of medical words and phrases. 8°. *Philadelphia*, 1903.

BECHHOLD (H.) Handlexikon der Naturwissenschaften und Medizin, bearbeitet von A. Velde, W. Schaaf [et al.]. 8°. *Frankfurt a. M.*, 1894 [1893].

BILLINGS (J. S.) The national medical dictionary, including English, French, German, Italian, and Latin technical terms used in medicine and the collateral sciences, and a series of useful data. With the collaboration of W. O. Atwater, Frank Baker, S. M. Burnett, W. T. Councilman, James F. Flint, J. A. Kidder, William Lee, R. Lorini, Washington Matthews, C. S. Minot, H. C. Yarrow. 2 v. roy. 8°. *Philadelphia*, 1890.

BLANCARD (S.) Lexicon medicum Græco-Latinum, in quo termini totius artis medicæ, secundum neotericorum placita definiuntur vel circumscribuntur, græca item vocabula ex originibus suis deducuntur, ante hæc a . . . , concinnatum et editum, nunc vero tertia fere parte auctum et pluribus in locis emendatum. Belgicis quoque prioris editionis nominibus Germanica, signa significantia adferunt, in hæc sunt substituta. 16°. *Genæ*, 1683.

— The same. Lexicon novum medicum Græco-Latinum, cæteris editionibus longe perfectissimum. In hoc enim totius artis medicæ termini, in anatomia, chirurgia, pharmacia, chymia secundum neotericorum placita dilucide et vere exponuntur et definiuntur. Græcæ quoque voces ex origine sua deducuntur, hisce præterea adjungitur Belgica, Germanica, Gallica et Anglica interpretatio, cum indicibus eorum locupletissimis. Opus sane omnibus philologis, philologis et philosophis commodissimum, utilissimum. 8°. *Lugd. Bat.*, 1702.

— The same. Lexicon medicum Græco-Latino-Germanicum, in quo termini totius artis medicæ secundum neotericorum placita definiuntur vel circumscribuntur, Græca item vocabula ex originibus suis deducuntur, cum præfatione Georg. Ernest. Stahl. 4. ed. 16°. *Frankof. ad Viadr.*, 1705.

— The same. Lexicon medicum renovatum, in quo totius artis medicæ termini, in anatome, chirurgia, pharmacia, chymia, re botanica, etc., usitati, dilucide et breviter exponuntur juxta neotericorum tum practiconum tum mechanicorum placita et vere demonstrata principia. Hisce adjungitur Græcarum vocum etymologia; tum eorum Belgica, Germanica, Gallica, Anglica, etc., interpretatio; cum indicibus locupletissimis. Ed. novissima. 8°. *Lugd. Bat.*, 1717.

Medicine (*Dictionaries of*).

— The same. 5. ed. 12°. *Bala Magdeb.*, 1718.

— The same. Editio novissima, cæteris longe antior et perfectior. 8°. *Lugd. Bat.*, 1735.

— The same. 8°. *Lugd. Bat.*, 1756.

— The same. The physical dictionary, wherein the terms of anatomy, the names and causes of diseases, chyrurgical instruments, and their use are accurately describ'd; also the names and virtues of medicinal plants, minerals, stones, gums, salts, earths, etc., and the method of choosing the best drugs, the terms of chymistry, and of the apothecaries' art, and the various forms of medicines, and the ways of compounding them; with the addition of many thousand terms of art, and their explanation; also a catalogue of characters used in physick, both in Latin and English, engraved in copper. 4. ed. 8°. *London*, 1702.

— The same. The 7. ed., with the addition of many thousand terms of art and their explanation (from the last and best edition of Castells's *Lexicon medicum* and other authors), more than in any former impression. Also a catalogue of the characters used in physick, both in Latin and English, curiously engrav'd on copper. 8°. *London*, 1726.

— The same. *Arzneiwissenschaftliches Wörterbuch*, worin nicht nur die zur Heilkunde gehörigen Kunstwörter, sondern auch die in der Zergliedernungskunst, Wundarzneikunst, Apothekerkunst, Scheidekunst, Gewächskunde u. s. w. gebräuchlichen Ausdrücke deutlich bestimmt und kurz erklärt werden. Nebst dem ist die Abstammung ursprünglich griechischer Wörter fasslich auseinander gesetzt, und die holländische, französische, englische und andere Benennungen beigelegt, womit überdies noch die vollständigsten Register verbunden sind. Neu bearbeitet nach der neuen Isenflammischen Ausgabe und mit der nach alphabetischer Ordnung eingerückten kurzen Geschichte der berühmtesten Aerzte, nebst der Anzeige der vorzüglichsten Schriften derselben und vielen anderen Zusätzen vermehrt. 8°. *Wien*, 1788.

BOSSU (A.-F.) Petit compendium de médecine usuelle. Dictionnaire-bijou de pathologie, thérapeutique et hygiène domestique. 32°. *Paris*, [1886].

— The same. Petit compendium médical. Quintessence de pathologie, thérapeutique et médecine usuelle. 3. éd. 24°. *Paris*, 1895.

— The same. 4. éd. 32°. *Paris*, 1896.

BOUCHUT (E.) & DESPRÉS (A.) Dictionnaire de médecine et de thérapeutique médicale et chirurgicale, comprenant le résumé de toute la médecine et de toute la chirurgie, les indications thérapeutiques de chaque maladie, la médecine opératoire, les accouchements, l'oculistique, l'odontotechnie, l'électrisation, la matière médicale, les eaux minérales, et un formulaire spécial, pour chaque maladie. 5. éd. roy. 8°. *Paris*, 1889.

BUCK (A. H.) A vest pocket medical dictionary embracing those terms and abbreviations which are commonly found in the medical literature of the day, but excluding the name of drugs and of many special anatomical terms. 32°. *New York*, 1896.

CABALLERO Y VILLAR (J. M.) Diccionario tecnológico de ciencias médicas. 8°. *Vitoria*, 1886.

CASTELLI (B.) Lexicon medicum Græco-Latinum ex Hippocrate et Galeno desumptum. 12°. *Venetis*, 1642.

Medicine (Dictionaries of).

— The same. Nunc vero in commodum publicum opera et studio Adriani Ravesteini ex Hippocr., Galen., Avicenn. atque aliorum . . . medicorum monumentis. Tertia quidem sui parte auctius [etc.]. 12°. *Roterodami*, 1665.

— The same. Castellus renovatus: hoc est, lexicon medicum, quondam a Barth. Castello Messanensi inchoatum, per alios post modo continuatum, nunc vero ad vera novaeque artis medicae principia accomodatum, a plurimus mendis et vitiosis allegationibus correctum, et innumerabilium pene vocabulorum accessione amplificatum cura et studio J. P. Brunonis. 4°. *Norimbergae*, 1682.

— The same. Anathemum Castellum Brunonianum, sive lexicon medicum, primum a Bartholomaeo Castello Messanensi inchoatum, ab aliis etiam continuatum, tandem ad vera novaeque artis medicae principia accomodatum . . . cura et studio Jac. Pancreatii Brunonis. 4°. *Norimbergae*, 1682.

— The same. Accesserunt huic novae editioni Joannis Rhodii in Castelli lexicon perutil s. et hoc signo † notatae additiones. 4°. *Patarii*, 1713.

— The same. 4°. *Patarii*, 1721.

— The same. Lexicon medicum Graeco-Latinum, ante a Jacobo Pancreatio Brunone iterato editum, nunc denno ab eodem et aliis plurimis novis accessionibus locupletatum et in multis correctum. 4°. *Lipsiae*, 1713.

— The same. Editio nova accuratissima. 4°. *Genevae*, 1746.

CHRISTIANSON (J. C.) Den nyttiga ört-boken, eller kortfattlig vägledning till känskapen om wertriket i allmänhet och isynnerhet till igenkännandet af de förnämsta hos oss förekommande, i ekonomen och husmedicinen användbara, wilda och odlade örter, buskar och träd, jemte anvisning att insamla och förwara s. k. apotekswerter. [A useful dictionary, or brief guide to knowledge of words used in domestic remedies, technical terms, etc.] 12°. *Stockholm*, 1856.

CLEVELAND (C. H.) Pronouncing medical lexicon, containing the correct pronunciation and definition of most of the terms used by speakers and writers on medicine and the collateral sciences. With addenda. 16°. *Philadelphia*, 1865.

— The same. With addenda containing abbreviations used in prescriptions, and list of poisons and their antidotes. 16. ed. 16°. *Philadelphia*, 1875.

COPLAND (J.) Encyclopädisches Wörterbuch der practischen Medicin, mit Inbegriff der allgemeinen Pathologie, Therapie und pathologischen Anatomie, sowie der durch Klima, Geschlecht und Lebensalter bedingten Affectionen, nebst einer, nach pathologischen Grundsätzen gebildeten, Krankheitseintheilung, mit einer grossen Menge eingeflochtener, wie auch in alphabetischer Reihe angehängter, bewährter Recepte, einer vollständigen Literatur und genauen Citaten. Aus dem Englischen übertragen und mit Zusätzen versehen von M. Kalisch. 10 v. 8°. *Berlin, Posen & Bromberg*, 1834-59.

— The same. A dictionary of practical medicine; comprising general pathology, the nature and treatment of diseases, morbid structures, and the disorders especially incidental to climates, to the sex, and to the different epochs of life; with numerous prescriptions for the medicines recommended, a classification of diseases according to pathological principles, a copious bibliography with references; and an appendix of approved formulae, the whole form-

—. The same. 24°. Venetiis, 1556.

—. The same. 16°. Lugduni, 1559.

—. The same. 24°. Lugduni, 1620.

—. The same. Schatz. Ein kostlicher theihrer Schatz Eononymi Philatri, darinn behalten sind vil heymlicher güttler Stück der Artzney, fürnemlich aber die Art und Eygenschaft der gebräuten Wasseren und Ölen, wie man die selbigen bereiten sölle: dessgleychen yeder Wasseren und Ölen Art und Eigenschaft, Nutz und Brauch, [etc.]. Erstlich in Latin beschriben durch Eononymum Philatrum, und newlich verteytscht durch J. R. Landenburger. 8°. Zürich, 1555.

—. The same. The practise of the new and old phisicke [etc.]. sm. 4°. London, 1599.

GEUSS (W.) Methodus curandorum morborum mathematica: qua morborum depellendorum ex astrorum concordanti influxu ratio certa et evidens ostenditur. Cui et locorum hylegialium et thematum cœlestium structura adjecta. Nunc primum publici juris facta. sm. 4°. Francofurti, 1613.

GILBERT (É.) Philtres, charmes, poisons; antiquité, moyen âge, renaissance, temps modernes. 8°. Paris, 1880.

GRUELING (P.) Curationum dogmatico-hermeticarum, in certis locis et notis personis optime expertarum et rite probatarum centuria prima. 16°. Lipsiæ, 1638.

HANNEMANN (J. L.) Ovum Hermetico-Paracelsico-Trismegistum, i. e., commentarius philosophico-chemico-medicus [etc.]. 12°. Francofurti, 1694.

—. Instructissima pharus in oceano philosophorum ostendens viam veram et tutam. Ad Ophir auriferum, i. e. commentarius hermetico spagyricus in arcanum philosophiæ hermetice, auctoris qui latet sub ænigmatæ Pene Nos Unda Tagi. Cum responsione et resolu-

Medicine (*Magic, mystic, and spagyric*). tione cvlii questionum olim ab excell. Morhoso antori propositarum. 4°. Kiloui, 1712.

HARTMANN (F.) Occult science in medicine. 8°. New York, 1893.

HARTMANN (J.) Alchemie und Arkanologie im Gegensatze zur Schulmedizin. Die Arkana, die Remedia divina der alten Alchemisten. 8°. Zürich, 1888.

HELLWIG (C.) Grund- und Lehr-Sätze der gantzen und edlen Medicin, oder kurtze und deutliche Anleitung, wie so wohl die Herren Studiosi medicina, als auch ein jedweder, ob er schon kein Medicus, zu seiner Gesundheit und Lehre, eine gute Wissenschaft von der Medicina empirica, dogmatica, seu rationali, methodica, hermetica, spagyrica, chymica, vel Paracelsistica, und heut zu Tage florirenden Medicina dogmatico-hermetica sive rationali, und deren Theilen . . . kurtz und gut tractiren, und bei göttl. Seegen, wohl und bald begreifen möge, [etc.]. 12°. Leipzig, 1715.

INDAGINE (J.) Introductiones apotelesmaticæ elegantes in chymantium, physionomiam, astrologiam naturalem, complexionem hominum, naturas planetarum, cum periaxiomatibus de faciebus signorum et canonibus de egritudinibus, nusquam fere simili tractata compendio. 16°. Lugduni, 1556.

INGEBERN (J.) Chiromantia, metoposcopia et physiognomia curioso-practica. Oder kurze Anweisung wie man aus den vier Haupt-Linien in der Hand, wie auch aus den Adern auff der Hand, von des Menschen Gesundheit, Glück und Unglück, muthuasslich judiciren oder und hiebevorn von keinen noch nie in Druck gegebenen. Abmessung der Linie Honoris, wie auch den Adern auff denen Händen, daraus man Gesundheit, Krankheit und dergleichen erschen kan. 16°. Franckfurt a. M., 1692.

—. The same. Mit Fleiss auff's neue zum drittenmal übersehen, mit etlichen Capiteln vermehret, und von den vorigen Druck-Fehlern gesühbert, auch bey jedem Paragrapho um ein merkliches vermehret. 16°. Franckfurt a. M., 1701.

JOANNES DE RUPESCISSA. De consideratione quintæ essentiae rerum omnium, opus sane egregium. Accessere Arnoldi de Villanova epistola de sanguine humano distillato; Raymundi Lullii ars operativa, et alia quedam; Michaelis Savanarolæ libellus optimus de aqua vita, nunc valde correctior quam ante annos lxx editus, omnia ad selectissimam materiam medicam, et morborum curationem, vitæque conservationem mirabiliter facientia. 16°. Basilea, 1597.

KIRCHER (A.) Magneticum naturæ regnum sive disceptatio physiologica de triplici in natura rerum magnetæ, juxta triplicem ejusdem naturæ gradum digesto inanimato sensitivo qua occultæ prodigiosarum quarundam motionum vires et proprietates, quæ in triplici naturæ economia nonnullis in corporibus noviter detectis observantur, in apertum lucem eruantur et luculentis argumentis, experientia duce, demonstrantur. 4°. Roma, 1667.

LA COURVÉE (J.-C.) Dissertatio de tinctura universali (vulgo lapis philosophorum dicta) in qua 1. quid hæc sit, 2. quod detur in rerum natura; 3. an Christiano consilium sit immediate in hanc inquirere; 4. e qua materia; et 5. quomodo præparetur, per rationes, et variorum experientiam perspicere proponitur; aliaque curiosa et utilia, hinc analogia, adnectuntur. Ad normam Academiæ naturæ curiosorum. sm. 4°. Altenburgi, 1678.

LE FEBVRE [LEFÈVRE] (N.) Neuvermehrter chymischer Handleiter und guldnes Kleinod:

Medicine (Magic, mystic, and spagyric).

das ist: dentliche Unterweisung, wie man die von chymischer Wissenschaft los gemein handelten Schriften recht verstehen, und nach Ordnung der spagyrischen und apothekerischen Bereit-Kunst die darzu erforderte wirkliche Operation gebühlich verrichten, die Vegetabilien, Animalien und Mineralien, ohn Verlust ihrer wesentlichen Kräfte bereiten, auch die Fehler welche chedessen in den gemeinen Apotheken begangen worden, vermeiden, und nach der heutigen Verbesserung alle Bereitungen anstellen misse: vormals durch den . . . , anjetzo aber auf Ersuchen guter Freunde durchaus mit vielen spagyrischen Secreten und Artzney-Experimenten vermehret; worzu bey dieser neuen Edition noch kommt Herrn Le Febvre Beschreib- und Erklärung der grossen Hertz-Stärkeung des Ritters Rawlichs, so jetzo gleichfalls vermehret und alles zum andernmal in den Druck gegeben worden, von Joh. Hiskia Cardincio. 12°. Nürnberg, 1685.

LEMNIUS *Ziricæus* (L.) *Occulta naturæ miracula, ac varia rerum documenta, probabilis ratione atque artificij conjectura duobus libris explicata, quæ studioso avidoque lectori non tam usui futura, quam oblectamento.* 24°. Antverpia, 1539.

— The same. *De miraculis occultis naturæ, libri iv.* Editio ultima, prioribus emendatior et correctior. 16°. Lugd. Bat., 1666.

— The same. *Les occultes merveilles et secretz de nature, avec plusieurs enseignemens de choses diverses, tant par raison probable que par conjecture artificielle; exposées en deux livres de non moindre plaisir que profit à lecteur studieux. Nouvellement traduit de latin en François par J[acques] G[oharry] P[arisien].* 16°. Paris, 1567.

— The same. Von dem wunderbarlichen Geheimnissen der Natur und deselben fruchtbarlichen Betrachtung nicht allein nützlich sondern auch lieblich zu lesen. Aus dem Latein in die deutsche Sprache auff Bitt etlicher Leute und gemeinen Vaterland zum besten gebracht durch J. Horschelt. 4°. Leipzig, [1569].

LE MORT (J.) *Chymica medico-physica, rationibus et experimentis instructa. Brevi et facili via, processus spagyricos rite et artificiose ad finem, perducendi, normam exhibens. Qui annexa est, metallurgia contracta, sncemetam metallorum tractationem demonstrans.* 16°. Lugd. Bat., 1684.

LEONARDO (D.) *Capricci medicinali, divisi in tre libri: nel primo insegna a conoscere vari et diversi segni naturali, con molti secreti mirabili nella medicina et chirurgia; nel secondo dimostra il modo di far vari et diversi medicamenti; nel terzo si tratta dell' alchimia dell' huomo, et dell' alchimia minerale, materia molto utilissima a ciascheduno.* 12°. Venetia, 1561.

LIBAVIUS (A.) *Examen philosophiæ novæ, quæ veteri abrogandæ opponitur: in quo agitur de modo descendendi novo; de veterum autoritate; de magia Paracelsi ex Crollio; de philosophia vivente ex Severino per Johannem Hartmannum; de philosophia harmonica magica fraternitatis de Rosæ Cruce.* fol. Francof. ad Moenum, 1615.

LULLY (R.) *Incipit liber prime distinctionis secretorum naturæ seu quinte essentie . . . qui doctrinam ejus extractionis et applicationis ad corpora humana ad opera terribilia totius artis medicine procuranda; et etiam metallorum transmutationem refert; qui est ymago omnium librorum super his tractantium.*

In: DE GRADI [or GRADIBUS] (Jo. Matth.) *Consilia Secundum viam Avicennæ ordinata.* [Ed. 2.] fol. Lugdunt, 1835, ff. 93-101.

Medicine (Magic, mystic, and spagyric).

— Opera quæ ad inventam ab ipso artem universalem, scientiarum artiumque omnium brevi compendio, primaque memoria apprehendendam, locupletissimæ vel oratione ex tempore pertractandam, pertinent. Ut et in eandem quorundam interpretum scripti commentarii: quæ omnia sequens indicabit pagina: et hoc demum tempore conjunctim emendatiora locupletioraque non nihil edita sunt. Accessit Valerii de Valeriis Patricii Veneti animum in artem Lullii generalem opus. Editio postrema. 16°. Argentorati, 1651.

MEAD (R.) *De imperio solis ac lunæ in corpora humana, et morbis inde oriundis.* Editio altera, auctior et emendatior. 8°. Londini, 1746.

MEYEN (P.) *Chiromantia medica.* Mitt einem Anhang von den Zeichen auff den Nägeln der Finger. Nebens einem Tractatlein von der Physiognomia medica. 16°. Graven-Haag, 1669.

MINNITI (F.) *Ammonia astro-medico-anatomica, o sia colleganza degl' astri con il microcosmo, e di questo con i vegetabili, con un appendice della nautica, ed in calce un raccolto di aremi sperimentati, cognitioni necessarie a' medici, chirurgi, barbieri, naviganti, ed a ogn' altro genere di persone. Finito all' otio.* 4°. Venetia, 1690.

MIZALDUS [MIZAULD] (A.) *Centuriæ ix memorabilium, utilium, ac juvenum in aphorismos arcanorum omnis generis locupletes, per pulere digestæ. Accessit his appendix nonnullorum secretorum, experimentorum, antidotorum quæ contra varios morbos, tam ex libris manuscriptis quam typis excensis collecta. Seorsum excusa harmonia cælestium corporum et humanorum, dialogis undecim astronomice et medicæ elaborata et demonstrata. Item memorabilium aliquot naturæ arcanorum sylvula, rerum varium sympathias et antipathias, libellis ii completens.* 16°. Francofurti, 1599.

— The same. 16°. Francofurti, 1613.

MOST (G. F.) *De sympathetische middelen en geneeswijzen, of het gebruik van amuletten, bezweringen, magtspreken enz. in de geneeskunde onderzocht, historisch-kritisch behandeld en naar de natuur verklaard.* 8°. 's Hertogenbosch, 1844.

NATÜRLICHE Vorzeichen verschiedenen Wetzters, welche man an der Sonne, am Monde, an den Sternen, der Luft, dem Wasser, der Erde, an Thieren, etc., wahrgenommen hat, allen Landleuten, Gärtnern wie auch Schiffen sehr dienlich von einer Liebhaber von Zeit zu Zeit in Acht genommen und durch eigene Erfahrung aufgesetzt. Aus dem Holländischen übersezt. 12°. Leipzig, 1775.

NOSTRADAMUS (M.) *Zwey Bücher, darinn warhafftiger, gründlicher und volkommener Bericht gegeben wirdt, wie man erstlich einen zugestaltten Leib, an Weib und Manns Personen ausswendig zieren, schön, und junggeschaffen machen, und allerley wohlriechende, köstliche, krefftige Wasser, Pulver, Öl, Seyffen, Rauchkertzlin, Bisamkuglen, zu mancherley Gebrechen dienstlich, artlich zubereyten. Und wie man folgens allerley Frücht auff das künstlichest, und lieblichest, in Zucker einmachen, und zur Notturfft auff behalten sol. Erstlich in frantzösischer Sprach von ihme beschriben. Nun aber, unserm Vatterland zu güten, in das gemain Teutsch, auff das trewlich verdolmetscht, durch Hieremiam Martinum.* 16°. Augspurg, 1573.

PAGGI (C. A.) *Enchiridion medico-astro-chymicum, universam medicinarum theoriam complectens, ac praxim post anatomiam restitutum Caroli Antonii Paggi.* 12°. Ulyssipone, 1664.

Medicine (*Magic, mystic, and spagyric*).

PARACELSUS [BOMBASTUS AB HOHENHEIM]. (A. P. T.) Wundt und Leibartznei zu allen Wunden, Verletzungen, Schäden und Brüchen, Wes jedem Wundarzt der Theorie und Practick zu wissen von Nöten, die ganze Chirurgen be- langend, in sorglichen, heyndlichen oder offnen, auch frantzösischen Schäden und Heylungen, wider den irrigen Branch der unerfahrenen Wundt und Frantzosenärzts, auss den Schriften des vil und wolerfahren D. Theophrasti Paracelsi. Dab- bei von Aussziehung der fünfften Wesenheit, quinta essentia, auss bewerten Stücken der Artznei, zu wunderbarer Heylung leiblicher Ge- brechen, durch verborgene natürliche Krafft derselbigem, Raimundus Lullius. sm. 4°. *Frankfurt a. M.*, [1549].
